#### A R E F L E C T I O N

America is incomplete, ever in need of reform. The balance among exocutive, legisla - tive and judicial branches is repeatedly tipping too far one way or the other.

Being incomplete, America is a nation with a future. Shaping that future is our part in the ongoing American Revolution. The future depends on a decision by "We the People" to make government our business by active participation in its progresses.

ONE PLACE TO BEGIN IS IN PRAYER:

Father,  
 a handful of couragoous men  
 in a moment of danger  
 pledged their lives, fortunes and honor  
 to proclaim a nation  
 whose citizens' rights were based  
 not upon the nod of king or ruler  
 but upon creation at Your hands.  
 Grant to the executive branch  
 a ministry of service to all  
 not the few.  
 To the Congress  
 the upholding of public interest  
 over competing private claims.  
 To the Judiciary  
 a wisdom in interpreting the law  
 grounded in principle - not expodioncy.  
 Pour Your Spirit out upon us  
 so that we may become active  
 in the affairs of government  
 that we may not confuse dissent for disloyalty.  
 May our nation use its mighty power  
 for the healing of differences  
 among nations  
 with justico and mercy and love. Amen.

(-Richard Armstrong).
