Unfortunately Emma Giuffre tripped during the evening, suffered a hairline fracture of the foot, and is now on crutches.

A MAGICIAN found out that there was an agent in the audience, so he decided to perform all of his best tricks. He began pulling 200 scarves out of a hat, then he produced 150 playing cards from the air, one at a time. Finally, he threw a blanket over himself and disappeared.

The next morning, he called the agent and asked, "What do you think?" "I'd only make one change," said the agent. "That trick where you vanish. You should do that first."

Invite a guest to the next meeting.
